EXPERIENCE

Motion Dynamics, Birmingham — Full-stack developer

September 2025 - PRESENT

- Developed an interactive React.js front-end application to visualize analytical JSON data using dynamic charts and tooltips
- Integrated multiple chart types to clearly present complex data insights, enhancing user interpretation and decision-making
- Implemented a 3D human body model synchronized with chart data to visualize physical states and transitions in real time
- Designed a responsive and modular UI, ensuring smooth rendering and performance across devices Birmingham, UK Sep 2025–Present
- Collaborated with backend and data teams to ensure accurate, real-time data mapping between API responses and visual components

Butterfly Nail Club , London (remote) — Full-stack developer

December 2023 - April 2024

- Built a web-based reservation system using Django, REST APIs, and Bootstrap
- Developed booking models, worker scheduling, and automated time-release cron jobs
- Improved booking efficiency and cut scheduling time by 50% while reducing errors

Asaal Co. Automation , Tehran, Iran — Full-stack developer

June 2023 - September 2023

- Developing a check-list on an online platform for machines to complete after using.

Manzoume Kherad Institute , Tehran, Iran — Programming teacher

September 2023 - September 2024

- Python and wordpress teacher for secondary and high school

SKILLS

Languages:

Python, C++ ,JavaScript, WordPress

Frameworks&Tools:

Django, Bootstrap, Pandas, Git, HTML/CSS, React.js

Expertise:

Full-Stack Development, AI Integration, Blockchain Development

LANGUAGES

Persian (Farsi)

English (IELTS 7)

EDUCATION

University of Birmingham, Birmingham UK — *MSc Cognitive Neuroimaging & Data science*

September 2024 - September 2025

- Specialization in Computational Neuroscience
- Thesis: Virtual Reality & Material Perception
- Designed VR experiments in Unity to study human perception of material softness
- Implemented interactive environments with haptic and visual feedback in the university's VR Lab
- Applied data science methods to analyze behavioral and cognitive responses in perception tasks

K.N Toosi University of Technology, Tehran Iran — *BSc Electrical Engineering*

September 2019 - September 2024

- Specialization in Electronics
- Thesis: Tandem solar cell simulation
- Built an UV-Ozon cleaner

Certifications

Python Web Development with Django

September 2023

Tehran Institute of Technology

Programming with Python

April 2023

Tehran Institute of Technology
